PROFESSIONALLY DESIGN ALLOWS 6-8 MONTH USE

	Pacey Cuff™ Urethral Control Device	Disposable Pads	Other Clamps
	Proven to significantly reduce or stop leaks caused by Stress Urinary Incontinence (SUI) while maintaining blood flow in the penis.	Absorbs leaks rather than stopping them.	Stop leaks but also restrict blood flow to the penis, causing pain.
	Can use all day* (simply loosen to void, then re-tighten).	Must be changed when wet.	Must be released every hour to ensure circulation is not cut off.
	Reusable – lasts 4-6 months (may be better for the environment).	Disposable – thrown away every few hours.	Reusable.
	Compact and discreet.	Bulky and messy.	Can be bulky or heavy.
	Comfortable when fitted properly.	Uncomfortable and awkward.	Must be released hourly. Can be painful.
	Better for the environment.	Ends up in landfill daily.	Better for the environment.
	Less than \$300 a year (May be covered by your private insurance plan**)	\$1400-\$2100 a year	Less than \$200 a year.
